For The Invisible Wig so closely resembles the real head of hair that skeptics and conn isseurs have pronounced it the most perfect and extraordinary invention of the day. The great advantages of this novel and unique wig is its being made without sewing or weaving, which causes its appearances so closely to resemble the natural hair, both in lightness and natural appearance, as to defy detection, its texture being so beautiful, so porous and so free, that in all cases of perspiration evaporation is unimpeded, and the great evils of other wige entirely avoided. The sceptic and connoisseur are alike invited to inspect this novel and beautiful Wig, and the peculiar method of fitting the head, at the manufacturer's, A. C. BARRY, 146 Broadway, corner of Liberty-st. up stairs.
